

Women in Super and AGSM@UNSW Business School Scholarship

Navigating and leading in an evolving superannuation landscape

APPLICATIONS ARE OPEN

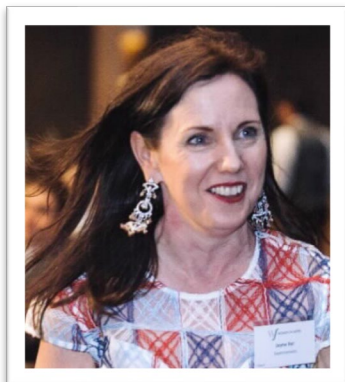

Following on from the success of the 2019 program, Women in Super (WIS) and AGSM @ UNSW Business School have again partnered to offer an education scholarship for NSW WIS members wishing to further their learning and leadership capabilities.

The scholarship will cover registration for a course offered by AGSM in 2020. Members can choose from a range of courses focused on building leadership and change management skills.

WIS is proud to support the development of women and offer these scholarships sponsored by AGSM, to continue the learning opportunities for our members.

Applications are encouraged from women of all levels of seniority and experience.

PREVIOUS WINNERS

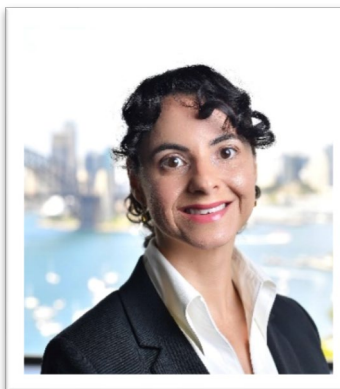

"The Commercial Management course run by AGSM gave me excellent tips to analyse commercial decisions. I particularly enjoyed the commercial decision framework we discussed, and found the course a useful mix of

practical exercises combined with theory, as well as excellent opportunities to network with other leaders from both my industry and other professionals."

Jayne Ker

Manager, Service Provider Relationships
AMP Capital

"I would highly recommend any woman considering applying for a scholarship through WIS take the next step and apply. The process itself gives you time to focus on your career aspirations and identifying where your leadership capabilities can be enhanced. It

gave me an opportunity to be exposed to professionals in other industries, their challenges and how to work nimbly to complete tasks. The Shaping Strategy to Create Value course gave me tools to think strategically which I have already been able to implement in my current role and exposed me to new perspectives which can only be achieved by being in a different environment. I am grateful to WIS, AGSM and my employer for giving women the opportunity to seek greater professional development and opportunity for advancement in the superannuation industry."
