

NATIONAL ROAD SHOW

with Lucy Brogden Mental health in the workplace

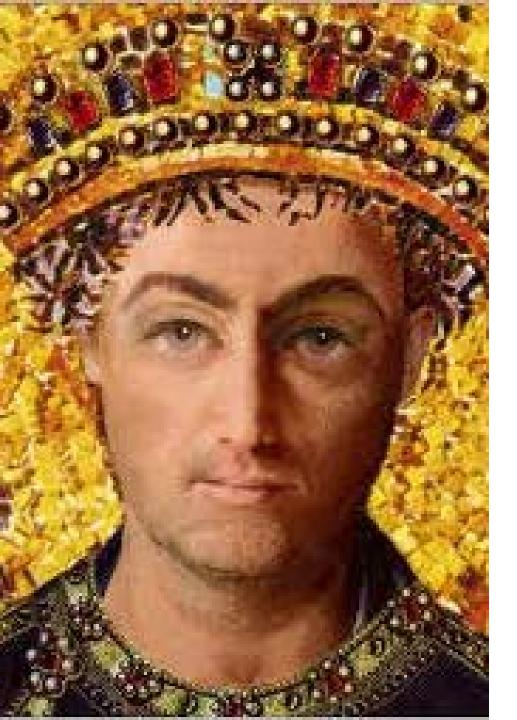

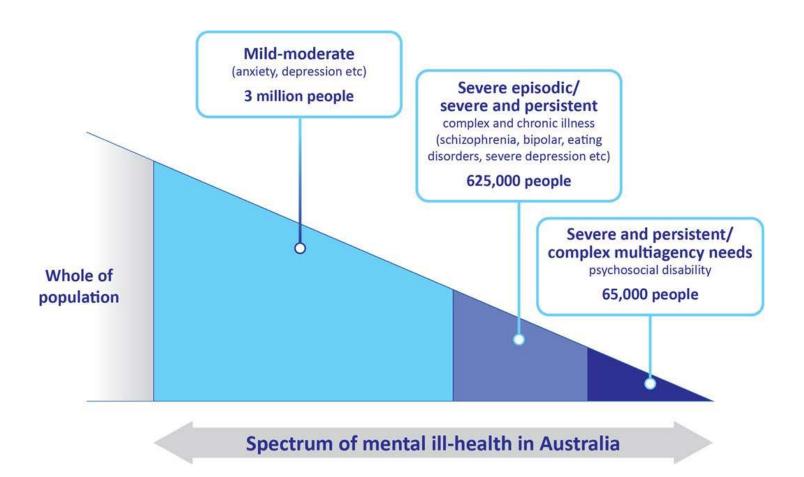

Love and work are the cornerstones of our humanness.

- Sigmund Freud.

SALUS POPULI SUPREMA LEX

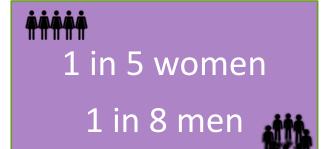

THE WELLBEING OF THE PEOPLE IS TO BE THE HIGHEST LAW

Annual distribution of mental ill-health in Australia

~1M Australians live with Depression

~2M Australians live with Anxiety

1 in 3 women

1 in 5 men

8 Australians
die by suicide
every day – 5 are
men

Economic Impact

Cost of mental ill-health >4% of GDP

Australia = \$60B

Every 10% gain in mental health of Australians, GDP would rise by 0.4%

About the Commission

- Established 2012
- Executive agency in Commonwealth Health portfolio
- Reporting to Commonwealth Minister for Health
- Twice yearly reporting to Prime Minister and Minster for Health

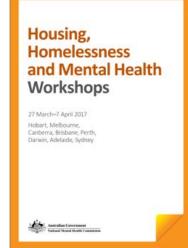

quality of life - equality in life

The Commission's Role

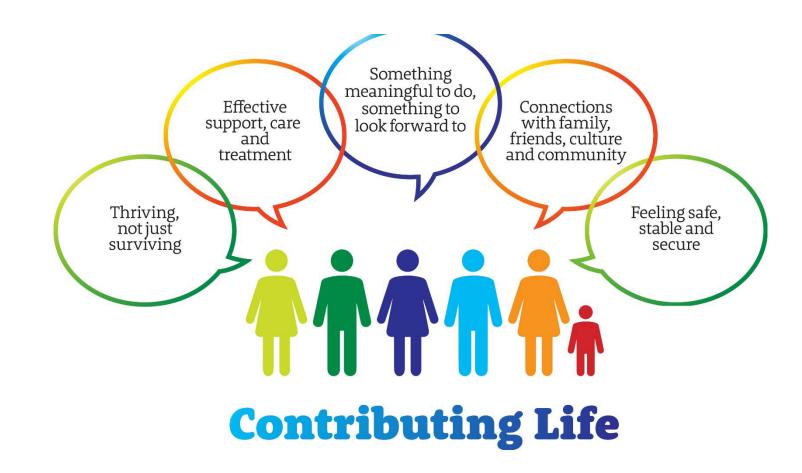

That all Australians achieve the best possible mental health and wellbeing.

Monitor and report on mental health and suicide prevention systems

Provide advice to Government and the community

Act as a catalyst for change

CONTRIBUTING LIFE

SOCIAL DETERMINANTS OF HEALTH

The conditions in which people are born, grow, work, live, and age, and the wider set of forces and systems shaping the conditions of daily life.

These circumstances are shaped by the distribution of money, power and resources at global, national and local levels.

The social determinants of health are mostly responsible for health inequities - the unfair and avoidable differences in health status seen within and between countries.

Funding Models:

- Public: MBS, PBS, ABF, Welfare Benefits, Programme grants, private incentives
- Private: PHI, Self funded, commercial & social investments

REPORT SUMMARY AND HIGHLIGHTS

IN AUSTRALIA, DURING THE 2015 / 16 FINANCIAL YEAR

786,000

786,000 people who were unable to work due to ill health, injury or disability received income support from a commonwealth, state, territory or private source.

6.5 M

An additional 6.5 million people accessed employer provided leave entitlements for short periods of work incapacity.

A total of \$37.2 billion was spent on income support for these people during the year.

SCOPE OF INCOME SUPPORT SYSTEMS

LARGEST

SMALLEST

469,000 recipients \$8.6b expenditure

EMPLOYER PROVIDED ENTITLEMENTS

Largest system by recipients and expenditure

SOCIAL SECURITY DSP as major component WORKERS' COMPENSATION Short tail and long tail

LIFE INSURANCE TPD and income protection

COMMON MEDICAL CONDITIONS

MVA COMP Statutory benefit

SYSTEM SERVICES AND FEATURES

Systems fund job

finding / employment services

Musculoskeletal and mental health conditions are common.

Many people enter these systems with conditions ranging from mild temporary illness to serious acquired disability.

MOVEMENT BETWEEN SYSTEMS

Case management was the only service provided across all systems

There is very little data on movement of people between systems Interviews with 25 experts revealed a small number of major pathways for people with long periods of work incapacity.

SYSTEM DATA

The systems are data rich. However the data landscape is highly fragmented and siloed. Half of the systems have centralised databases there are few common data standards and no formal data linkage.

IDENTIFIED OPPORTUNITIES TO IMPROVE WORK AND HEALTH

Macro level policy reform

66%
Believe it would improve productivity.

National = 61%

Believe that it would improve staff retention.

National = 56%

63[%]
Believe it would **reduce absenteeism**.

National = 58%

Believe it would reduce compensation claims and associated costs.

National = 49%

Believe it would provide employers with the ability to attract and recruit new employees.

National = 39%

The business case for investing in workplace mental health and wellbeing

51%

Believe that employers have a **lack of understanding** around mental health and wellbeing issues.

National = 49%

42%

Believe employers focus more on physical health and OHS than mental health.

National = 44%

42*

Believe managers lack skills and training to address mental health and wellbeing issues. National = 42%

31°

Believe that stigma prevents employers from taking action to promote mental health and wellbeing.

National = 33%

45%

Believe employers don't have enough time and everyone is too busy.

National = 39%

31°

Believe a **culture of compliance** prevents employers from taking action because they only do what they have to do.

National = 28%

What is preventing employers from taking action?

Are we there yet?

LEADERSHIP

The existence of supportive and committed leadership in the organisation that endorses and prioritises initiatives that support a mentally healthy workplace.

National = 62

CONNECTEDNESS

A work environment that is characterised by strong interpersonal and social support, trust and fairness, and inclusiveness.

62

National = 61

POLICIES AND PRACTICES

The existence and use of robust policies, strategies and processes that address mental health within an organisational framework. There are clear processes driving policy development and implementation in the workplace.

57

National = 50

CAPABILITIES AND CULTURE

The application of knowledge and skills within an organisation to support positive mental health and wellbeing, and to influence the culture through changing practices and improving the environment.

47

National = 47

2017 PROGRESS TOWARDS THE DESIRED STATE OF WORKPLACE MENTAL HEALTH AND WELLBEING.

NATIONAL INDEX SCORE

Culture eats strategy for breakfast.

- Peter Drucker

IDENTITY AND PURPOSE

"EVERYONE SEES WHAT YOU APPEAR TO BE, FEW EXPERIENCE WHAT YOU REALLY ARE" culture

brand

purpose

Tying organisational identity and culture

Cognitive Dissonance

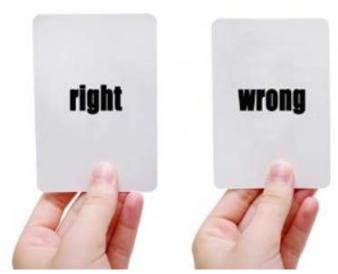

- Festinger's (1957) cognitive dissonance theory suggests that we have an inner drive to hold all our attitudes and beliefs in harmony and avoid disharmony (or dissonance).
- Cognitive dissonance refers to a situation involving conflicting attitudes, beliefs or behaviours. This produces a feeling of discomfort leading to an alteration in one of the attitudes, beliefs or behaviours to reduce the discomfort and restore balance etc.

Ethical Climate

The shared perceptions of what is ethically correct behaviour and how ethical issues should be handled in the organisation (Peterson, 2002)

Moral Distress and Injury

- Moral distress arises from ongoing moral and ethical conflicts with the workplace
- Moral injury is the damage done to one's conscience or moral compass when that person perpetrates, witnesses, or fails to prevent acts that transgress their own moral and ethical values or codes of conduct.
- Moral injury can lead to serious distress, depression and suicidality. Moral injury can take the life of those suffering from it, both metaphorically and literally. Moral injury debilitates people, preventing them from living full, healthy lives.

Source – Moral Injury Project Syracuse University

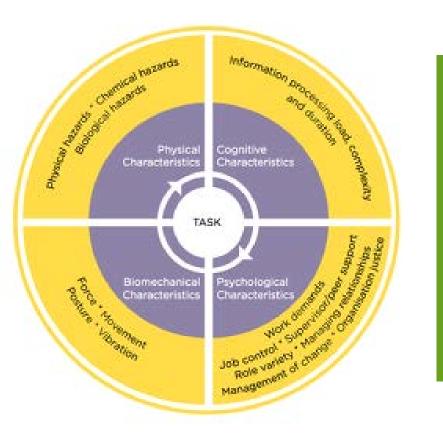

6 Key Areas Workplaces Need to Address

- 1. Smarter work design
- 2. Promoting and facilitating early help seeking and early intervention
- 3. Building a positive and safe work culture
- 4. Enhancing personal and organisational resilience
- 5. Supporting recovery
- 6. Increasing the awareness of mental illness and reducing stigma

If you want someone to do a good job – give them a good job job to do.

Herzberg

Job and Work Design

Gender - Financial Security

If Sydney were 100 women...

- 31% would have a university degree, and 8% would currently be studying for one
- 30% would work full time
- 5% would **own a business**
- 27% of those who work would take public transport to get there
- 18% would have performed volunteer work in the last year
- 15% would earn over \$100k per year
- 48% would earn less than \$34k per year
- 54% would be **in paid work** (compared to 65% of men)

Make Super Fair

Provide low income earners with an additional \$1,000 contribution annually into their super accounts to help boost their balances and make up the super gender gap

Increase the super guarantee to 12%

Remove the \$450 monthly pay threshold which sees an estimated 220,000 women miss out on super every year

Make sure that super is paid on parental leave, to ensure it is treated like all other types of leave

Measure and publish the impact that any future changes to super would have on women
